Our Pledge to Insured Homeowners

At Coast View Plumbing and Restoration, we recognize that insured homeowners can find the insurance claims settlement process to be complex and frustrating. It's not uncommon for insurance claim adjusters to deny or exclude certain items necessary for the ultimate repair of your home, sometimes after weeks or even months of waiting.

That's why we're here to help.

We guarantee that we will limit our billing to the amount finally paid by your insurance provider, giving you peace of mind and the assurance that you'll only be responsible for the deductible portion and nothing more.

Let us take the stress and anxiety out of your insurance claims settlement process and help you get your home back to its pre-loss condition.
